

Would you like to know how to?

- Measure forestland to the nearest 1/10th acre. How about measuring the size of food plots, farm ponds or stream-side management zones?
- Mark entrance gates, landings and beetle spots. What about lucky fishing or hunting spots?
- Mark boundaries, roads and trails. And how about recording your favorite drive in the country?

If you answered “yes”, then this workshop could be very beneficial.

Individuals who require special accommodations to participate should contact the Panola County Extension Office to make their request prior to the program. Contact should be timely to ensure appropriate accommodation.

You are encouraged to become a member of the Panola/Tallahatchie Forestry Association. Its purpose is to promote, develop, and protect the forest and natural resources in Panola and Tallahatchie Counties for the best interest of present and future generations.

This organization also acts as the “Voice of Forestry” in your county. The membership conducts public affairs, communications, and educational programs that promote a better understanding of the environment and forest management. If interested, contact your county extension director about joining.

Understanding Global Positioning System (GPS) Workshop

Landowner Workshop
Tuesday, May 17, 2016
8:30 am – 2:00 pm
Cliff Finch Office Building
245-C Eureka Street
Batesville, MS

Understanding Global Positioning System (GPS) Workshop

Understanding Global Positioning System (GPS) Workshop

* You are welcome to bring your GPS unit if you have one!

Description

You will learn the basics of GPS and how to find and set waypoints, routes, and tracks. These skills can help foresters, loggers and other professionals, as well as hunters, fishermen, and forest landowners. This workshop will be conducted half-indoors and half-outdoors with hands-on training.

Please dress to be outdoors!
